HOUSING: POLYCARBONATE, WHITE
LENS: POLYCARBONATE, CLEAR

REGULATIONS: FMVSS-302
(NON-SENSOR VERSIONS)

MULTIPLE OPTIONS AVAILABLE TO FIT EVERY NEED

- Still produced at our Grote Electronics facility in Canada, these lamps now feature improved LEDs as well as a sleeker, more modern appearance.
- The plastic back panel, integral flange, and improved seal make the lamps less susceptible to moisture intrusion, removing the need for potting.
- The molded plastic back panel allows for secure mounting through the lens and has no sharp edges, meaning no snags during installation.
- Motion sensor versions feature a built-in, automatic thermal protection device.
- The interconnected version (61P61) is synchronized with one-on/all-on motion sensor detection.
- Motion sensor versions contain a passive infrared sensor switch which is specially designed to detect human body infrared signature within 10 feet, eliminating the need for additional switches.

PART #	DESCRIPTION	LUMENS	# OF LEDS	VOLTAGE	MOTION
61P11	18" Dome Lamp	1000	24	12V	No
61P21	18" Dome Lamp	1500	36	12V	No
61P31	18" Dome Lamp w/MS	1000	24	12V	Yes
61P41	18" Dome Lamp w/MS	1000	24	12V	Yes
61P51	18" Dome Lamp w/MS	1500	36	12V	Yes
61P61	18" Dome w/MS & SYNC	1000	24	12V	Yes
61P71	18" Dome Lamp 24V	1000	24	24V	No
